## 2. GENERAL

### 2.1. Introduction

#### 2.1.1. Purpose of the Examiner Differences Document

This document has been developed in accordance with the provisions contained in ARA.FCL.210. In accordance with FCL.1015(b)(4) and (c), this document contains the latest available information on the relevant national administrative procedures, requirements for protection of personal data, liability, and fees for each EASA Member State (MS). It is intended for use by examiners with a Part-FCL examiner certificate conducting a test, check or assessment of competence on a Part-FCL licence holder whose licence was issued by a competent authority (CA) other than their own.

This document is *not* meant to be used by examiners with examiner certificates or authorisations issued by third countries other than the EASA MSs.

This section should be carefully studied. Section 3 contains the national administrative procedures applicable to each EASA MS. These should be reviewed and applied when conducting a skill test, proficiency check or assessment of competence on a respective MS licence holder. Furthermore, any additional MS-specific requirements in addition to those specified in this section, i.e. liability, accident insurance, and personal data protection related information, should also be reviewed and taken into account by the examiner as appropriate.

#### 2.1.2. Test or Check Form Declaration Requirement

In accordance with FCL.1030(b)(3)(iv), a MS skill test, proficiency check or assessment of competence form requires a declaration by the examiner that he/she has reviewed and applied the MS-specific administrative procedures in case the applicant's licencing authority is not the same as the one that issued the examiner's certificate.

The test/check forms of a MS used by examiners who have been certified by another competent authority should contain the following declaration;

'I hereby declare that I, *[name examiner]*, have reviewed and applied the relevant national procedures and requirements of the applicant's competent authority contained in version *[insert document version, i.e. 01-2014]* of the Examiner Differences Document. *[enter date & signature]*'

Please ensure that you enter the relevant details and sign the declaration accordingly each time you conduct a test, check or assessment of competence.

#### 2.1.3. Safety criteria in the territory of an EASA Member State

In accordance with ARA.FCL.210(c), MSs may require an examiner to observe certain safety criteria applicable to their territory when conducting a skill test or proficiency check on an aircraft. Section 3 specifies whether such safety criteria will need to be observed and how to gain access to the relevant criteria. Section 4 also contains a list of all MSs with instructions on how to obtain the applicable safety criteria.

### 2.2. Liability and Accident Insurance

In general, the CA of an EASA MS does not provide liability or accident insurance during the conduct of tests or checks. It is therefore the responsibility of the examiner to ensure that he/she is adequately insured against incident, accident or liability issues.

Furthermore, the examiner is fully responsible for the safety during the skill test, proficiency check or assessment of competence, either in an FSTD or when acting as PIC in an aircraft. There are two principal types of risk against which an examiner should consider insuring himself/herself. First, the direct involvement during flying tests might lead to an accident and a claim for damages for loss or injury ensuing as a result of the accident. Secondly, professional indemnity, for example a claim made against the examiner by an applicant for an inadequate

examination, or breach of contract. Examiners are advised to seek professional advice concerning appropriate insurance covering their activities as certified examiners.

An aircraft operator must have third-party liability insurance, as required by Regulation (EC) No 785/2004<sup>4</sup> on insurance requirements for air carriers and aircraft operators. Such insurance *may* cover an examiner for personal liability in case of accident; however, an examiner should always verify this carefully with the operator if he/she intends to rely on this insurance.

**Note:** This general statement on Liability and Accident Insurance has been agreed upon by the MSs and is based on the input received from the MSs. Any relevant differences to this general statement in a particular MS will be specified in section 3 of this document as applicable to the CA in the respective MS.

### 2.3. Personal Data Protection

EU Directive 95/46/EC<sup>5</sup> is the reference text with regard to the protection of personal data.

The Directive aims to protect the rights and freedoms of persons with respect to the processing of personal data by laying down guidelines determining when this processing is lawful.

Guidelines:

- Personal data must be collected for specified, explicit and legitimate purposes.
- Personal data must be processed fairly and lawfully.
- Personal data must be accurate and, where necessary, kept up to date.
- Personal data may be processed only if the data subject has unambiguously given his/her consent.
- It is forbidden to process personal data revealing racial or ethnic origin, political opinions, religious or philosophical beliefs, trade-union membership, etc.
- The data subject has the right to object, on legitimate grounds, to the processing of data relating to him/her.
- Personal data must not be transferred to other countries without adequate protection.
- Personal information must be protected against accidental or unlawful destruction or accidental loss, alteration, unauthorised disclosure or access.

In general, skill test, proficiency check and assessment of competence forms and any other personal information may only be passed to the examiner's CA, the applicant's CA as required, to the applicant and, if applicable, to the applicant's organisation with his/her prior consent.

No information shall be passed to others.

**Note:** This general statement on Personal Data Protection has been agreed upon by the MSs and based on the input received from the MSs. Any relevant differences to this general statement in a particular MS will be specified in Section 3 of this document as applicable to the CA in the respective MS.

### 2.4. National Administrative Procedures

Section 3 contains the specific administrative procedures provided by the CA of each EASA MS.

Please review the respective procedures and requirements carefully as non-compliance *may* lead to application processing delays and possibly render a completed skill test, proficiency check or assessment of competence invalid.

---

<sup>4</sup> Regulation (EC) No 785/2004 of the European Parliament and of the Council of 21 April 2004 on insurance requirements for air carriers and aircraft operators (OJ L 138, 30.4.2004, p. 1).

<sup>5</sup> Directive 95/46/EC of the European Parliament and of the Council of 24 October 1995 on the protection of individuals with regard to the processing of personal data and on the free movement of such data (OJ L 281, 23.11.1995, p. 31).

### 2.4.1 Information before any skill test

In accordance with the requirements in ARA.FCL.205(c), before any **skill test** is conducted an examiner shall send the following information to an Authority:

1.Examiner details:	2.Candidate details:	3.Skill Test details:
<ul style="list-style-type: none"> <li>▪ Examiner's (complete) name and initials</li> <li>▪ Examiners certificate number</li> <li>▪ Country of examiner certification</li> <li>▪ Contact details; mobile phone number, Email address</li> </ul>	<ul style="list-style-type: none"> <li>▪ Candidate's name and initials</li> <li>▪ Candidate's licence number</li> </ul>	<ul style="list-style-type: none"> <li>▪ Type of skill test</li> <li>▪ Type of aircraft</li> <li>▪ Specify Test in aircraft or FSTD</li> <li>▪ Name of FSTD operator</li> <li>▪ FSTD Approval certificate</li> <li>▪ Aircraft registration</li> <li>▪ Date and time</li> <li>▪ Place</li> </ul>

**Note:** Please ensure that you send good quality scanned pdf copies when sending the information via E-mail.

### 2.4.2 Information after a skill test, proficiency check or assessment of competence

After completion of a **skill test, proficiency check** or **AoC**, the examiner report shall include:

<ol style="list-style-type: none"> <li>1. A Skill Test or Proficiency Check Report Form or Assessment of Competence Form,</li> <li>2. A Flight Test Schedule.</li> <li>3. Copy of the statement of the ATO which confirms the required training has been completed (if applicable).</li> <li>4. Copy of FSTD approval certificate (if applicable).</li> <li>5. Copy of the examiner's licence.</li> <li>6. Copy of the examiner's certificate.</li> <li>7. Copy of the examiner's medical certificate.</li> <li>8. Copy of endorsed licence (if entry on licence by examiner).</li> </ol>
---

**Note:** Please ensure that you send good quality scanned pdf copies when sending the information via E-mail.

##### 4.2 Licence Endorsement Procedures

The examiner may endorse the licence if the rating which is renewed or revalidated is still printed in the licence, even if it has been invalid for more than three years. The authorisation required by ARA.FCL.200(c) before endorsing a pilot licence for revalidating or renewing is hereby given.

In all other cases the Belgian Civil Aviation Authority shall issue a new licence with a valid rating.

The examiner is not allowed to enter any new rating in the licence after a passed skill test.

The examiner is not allowed to enter any examiner certificate in the licence after a passed assessment of competence.

The endorsements are described in the Belgian Flight Examiner Manual (BeFEM). See item 4.7

#### 4.3 Designation Procedures

##### 4.3.1. Designation of examiners:

In accordance with the requirements in ARA.FCL.205(c), before any **skill test and AoC** is conducted an examiner shall send the following information, listed in [general section 2.4.1](#), to [bcaa.lic.dir@mobilit.fgov.be](mailto:bcaa.lic.dir@mobilit.fgov.be) with as subject "designation of examiner". The information must be send by filling in the form "Application form for designation examiner", that can be found on [here](#) or [here](#) under PART-FCL.

##### 4.3.2. Notification of test

In general, the examiner shall notify the Belgian Civil Aviation Authority (BCAA) **24 hours prior to every test** (skill test, proficiency check and assessment of competence). In case an examiner is not able to take the test within the **24 hours** a new designation has to be applied for.

In case of a partial pass or failure, the examiner has to fill in a new request again **24 hours** in advance. For this notification, the examiner shall introduce the above information [here](#) or [here](#).

#### 4.4 Test, Check or AoC forms

The forms can be obtained [here](#) or [here](#) under PART-FCL.

After completion of a skill test, proficiency check or assessment of competence, the examiner report shall include the following information listed in [general section 2.4.2](#).

#### 4.5 Safety Criteria

In accordance with ARA.FCL.210(c), the safety criteria to be observed by the examiner can be found in the BeFEM (see item 4.7).

**Note:** References to access to the safety criteria to be observed in the territory of other MSs, if applicable, are contained in Section 3 of this document.

#### 4.6 Examination Fees

BCAA does not provide financial remuneration for expenses or services rendered. The examiner shall arrange those with the training organisation or the candidate according to the flight examiner manual (see 4.7).

##### 4.2 Licence Endorsement Procedures

After successful completion of a licence proficiency check the examiner may endorse the new validity date in the license. The authorisation required by ARA.FCL.200(c) before endorsing a pilot licence for revalidating or renewing is hereby given.

#### 4.3 Designation Procedures

In accordance with the requirements in ARA.FCL.205(c), before any **skill test** is conducted an examiner shall send the following information, listed in [general section 2.4.1](#), to the Bulgarian CAA on the following email address: [ebf@caa.bg](mailto:ebf@caa.bg)

##### 4.3.1 Pilot Licences – Skill Test

Applicants for any licence skill test (LST) shall apply to the Bulgarian CAA for designation of the examiner. In addition, examiners are required to send a notification for **every** skill test they intend to conduct **at least 5 days** prior to the test with option to change the examiner up to **1 hour** before. The Bulgarian CAA will provide the applicant and the examiner with a written authorisation for conducting the skill test. An examiner may not conduct a skill test unless he/she has been authorized to do so in writing (by E-mail) by the Bulgarian CAA.

**PPL, CPL and IR skill test** - The Bulgarian CAA normally designates examiners who are Bulgarian CAA examiners or Part-FCL examiners registered with the Bulgarian CAA, or examiners employed by an ATO certified by Bulgarian CAA to conduct PPL, CPL and IR skill tests.

**ATPL skill test** – The Bulgarian CAA normally designates examiners who are Bulgarian CAA examiners or examiners certified by Bulgarian CAA, or examiners employed by an operator certified by the Bulgarian CAA to conduct the ATPL skill tests. In the case of pilots not employed by an operator certified by Bulgarian CAA, the applicant is required to nominate two examiners (or at least one) in the skill test application form, if not Bulgarian CAA certified examiners are to conduct the test.

##### 4.3.2 Pilot Licences - Proficiency Check

Examiners are not required to send a notification for every proficiency check they have to conduct.

##### 4.3.3 Instructor Certificates

Examiners are required to send a notification at least **5 days** before every initial assessment of competence they intend to conduct. An examiner may not conduct an initial assessment of competence unless he/she has received acknowledgement in writing (by E-mail) by the Bulgarian CAA.

##### 4.3.4 Examiner Certificates

Assessments of competence for the issue, revalidation or renewal of an examiner certificate **can only** be conducted by a Bulgarian CAA inspector or by a Senior Examiner.

#### 4.4 Test, Check or AoC forms

The forms can be obtained [here](#).

After completion of a skill test, proficiency check or assessment of competence, the examiner report shall include the following information listed in [general section 2.4.2](#).

The examiners shall send to BG CAA (address available in the briefing) these documents within **14 days** after the test or check either by post or courier, or by the candidate together with a cover letter signed by the examiner. Scanned copies may be sent to [ebf@caa.bg](mailto:ebf@caa.bg) immediately after the check in case of urgency. In addition, the Bulgarian CAA requires a report from the examiner detailing the reasons for any failure, partial pass or any special circumstance (if applicable).

#### 4.5 Safety Criteria

Safety criteria in accordance with ARA.FCL.210(c) are not applicable in Bulgaria.

**Note:** References to access to the safety criteria to be observed in the territory of other MSs, if applicable, are contained in Section 3 of this document.

#### 4.6 Examination Fees

The Bulgarian CAA does not provide financial remuneration for expenses or services rendered. The examiner shall arrange those with the training organisation or the candidate.

Currently there is no fee to be paid for foreign examiners, however the process of revision of the examination fees regulation applicable to pilot licenses is in progress. It is expected that there will be an examination fee.

### 3.9. FINLAND

Finnish Transport Safety Agency (Trafi)

#### 1. Liability

[General statement Section 2.2](#) applies. In addition, when flying a Finnish aircraft, any liability for loss or damage in an accident is partly determined on the basis of the flight examiner status. The examiner usually acts as pilot-in-command, but when revalidating a rating on a proficiency check, the examinee may act as PIC if he/she holds the required ratings. The command responsibility must be determined at the latest during flight preparation and stated in the flight plan. Responsibility for operational safety during the flight rests with the pilot-in-command.

Examiners shall make sure that they have the right to act as pilot-in-command for the flight in question. In accordance with the Finnish Aviation act, the owner, possessor or operator of the aircraft decides on the pilot-in-command and safe manning.

When flying in Finland using Finnish aircraft, any liability for damages is determined in accordance with Section 142 of the Finnish Aviation Act (1194/2009). Usually the aircraft owner, possessor and operator are jointly and severally liable for any damage caused. The provisions of the Tort Liability Act (412/1974) are applied to the division of liability between employer and employee, determination of the value of damage, and to any adjustment of compensation.

When the examiner conducts a skill test, proficiency check or assessment of competence on which he/she has personally agreed with the examinee or his/her instructor, the examiner has either the status of a hired employee or an independent contractor, depending on the type of employment or contract relationship, as regards the liability for damages. An examiner who conducts a test/check at the request of an authority who nominates him/her for the task – with the examiner's consent – is also regarded as a contractor.

#### 2. Accident Insurance

[General statement Section 2.2](#) applies. In addition, national provisions on the minimum insurance cover for aircraft crew (instructor and student pilot) are contained in Section 145 of the Finnish Aviation Act (1194/2009), but only for initial flight training ("seat insurance").

Based on his/her employment relationship, the examiner may be covered by the employer's insurance against accidents at work. Examiners who do not work for an employer are regarded as contractors and must look after their insurance cover themselves.

It is not mandatory to insure the aircraft against loss or damage. Anyone using the aircraft may check its insurance details. If the aircraft has no insurance, the examiner may take a liability insurance against loss or damage of the aircraft.

For some aircraft, the insurance terms may contain additional requirements concerning e.g. the pilot-in-command's licences, ratings, total flying experience or experience on that aircraft type or variant.

The aircraft operator (examiner/applicant) shall make sure that the third-part liability insurance is valid on every flight.

When using an aircraft registered in another country, it is important to ensure an adequate insurance cover both for the examiner and the applicant on each flight separately.

#### 3. Data Protection

[General statement Section 2.3](#) applies. In addition, the Act on the Openness of Government Activities (621/1999) specifies that the applicant's identity number or secret telephone number shall not be made public or used in any official documents. Information on the applicant's domicile, place of residence, temporary place of residence, telephone number

(even if not secret) and other contact details shall also be kept secret on request.

The applicant's identity shall be reliably identified.

The skill test / proficiency check report becomes public when it is completed and signed, regardless of any verbal assessments or reasons for failing explained. The completed report shall be distributed to:

- the examinee (original)
- examinee's licensing authority (copy)
- examiner's licensing authority (copy)
- the examiner (copy must be retained for 5 years)
- the instructor as feedback if a new licence or rating is issued (Ref. AMC2 FCL.1015 Examiner standardisation, purpose of a test or check, paragraph d) (copy)

#### 4.3.1 This procedure concerns CPL, IR and ATPL skill-tests conducted out of the management system of a French-approved ATO:

Process: e-mails must be sent to [examineurs.pro@aviation-civile.gouv.fr](mailto:examineurs.pro@aviation-civile.gouv.fr)

The examiner is proposed to DGAC by the candidate at least **30 calendar days** before the event (this is part of the candidate application process for the exam and stays between the candidate and DGAC). Only non-French examiners which are listed (certification valid at the date of the test) on the French list of certified examiners can be proposed.

#### 4.3.2 For all other skill-tests and any proficiency checks:

Non-French examiners must inform DGAC of their intention to conduct the test **at least 5 working days** before the event by sending the corresponding notification email (refer to annex 1: test notification email format). As long as the examiner receives the automated acknowledgement of his/her notification email, this fulfils the notification requirement. Unless he/she receives an additional email from DGAC including additional constraints/orders\*, the examiner can conduct the test at the date he/she stated in the initial notification email.

Process: e-mails must be sent to [dsac-test-notification-bf@aviation-civile.gouv.fr](mailto:dsac-test-notification-bf@aviation-civile.gouv.fr)

The authorisation required by ARA.FCL.200(c) before endorsing a pilot licence is hereby given for revalidating or renewing only. ARA.FCL.200(c) is applicable only, if the examiner has conducted the test personally.

##### 4.3 Designation Procedures

In accordance with the requirements in ARA.FCL.205(c) **skill tests** concerning CPL, ATPL, MPL and IR are subject to the following designation procedure:

##### 4.3.1 Complex ATOs according AMC1 ORA.GEN.200 (b)

Complex ATOs are to provide the LBA with a list of all the examiners they intend to use with following details:

- Examiner's name, surname
- Licence Number and state of issue, ratings held
- Details of the Examiner's certificate
- Expiry date of the Examiner's certificate

The process has to be specified within the safety management system of the Complex ATO. Any one of the examiners listed is then regarded as designated according to ARA.FCL.205(c).

#### 4.3.2 Other than complex ATOs including individual applicants:

may propose a certain examiner who is listed as an examiner by the competent authority of any member state. The proposed examiner will either be designated or rejected by the LBA. If the proposed examiner is rejected, LBA will designate another Examiner in due time.

Concerning skill tests related to licences of subparts B and C of Part-FCL (LAPL, SPL, BPL, PPL, except PPL (As) and IR), the competent aeronautical authorities of the relevant federal states will designate the examiner.

The designation procedures are described as follows: The ATO notifies the competent authority of the relevant federal state about the completion of the applicant's flight training. The competent authority will then designate the examiner for the skill test.

#### 4.4 Test, Check or AoC forms

The forms can be obtained from the [LBA home page](#).

Forms in English language [here](#).

Forms in German language [here](#).

After completion of a skill test, proficiency check or assessment of competence, the examiner report shall include the following information according to Part-FCL.1030.

The following requirements are applicable for the non-complex ATOs and tests of individual applicants:

- Copy of the examiner's licence.
- Copy of the examiner's certificate.
- Copy of the examiner's medical certificate.
- Copy of endorsed licence (if entry on licence by examiner)

shall be submitted to the competent authority after having conducted the test.

#### 4.5 Safety Criteria

The safety criteria to be observed by the examiner, in accordance with ARA.FCL.210(c), are not applicable in Germany.

##### 4.2 Licence Endorsement Procedures

Examiners with certificates issued by other countries will, in general, not have an authorisation to renew or revalidate a license or certificate issued by the CAA-NL.

In this case, the KIWA Register will issue a new license after the correct forms are received from the examiner and the candidate. Further information is found [here](#).

##### 4.3 Designation Procedures

Before any **test** or **check** is conducted the examiner has to send specific information to CAA-NL by sending in this form: Notification test or check by EU-examiners (non-Dutch)

If this is not possible, send at least the following information listed in [general section 2.4.1](#) to

[notification@ilent.nl](mailto:notification@ilent.nl)

The notification requirement is fulfilled when the examiner receives the automatic reply to this notification.

The examiner can then proceed with conducting the test or check on the indicated date, time and place unless CAA-NL contacts the examiner with a restriction or a constraint.

If there is any change in any of the details a new notification has to be submitted.

CAA-NL reserves the right to be present at the test or check or to replace the examiner.

In general, the examiner shall notify the CAA-NL **5 days** prior to the skill test. A change of examiner up to **1 hour** before the event is allowed.

4.4 Test, Check or AOC forms

All information can be found [here](#).

After completion of the skill test, proficiency check or assessment of competence, the examiner shall give the original report to the candidate and send copies to the authority responsible for the license of the candidate (KIWA Register) and a report to the authority responsible for the certificate of the examiner (FCL.1030 (b) (3)).

This report contains in most cases:

- A Skill Test and Proficiency Check Report Form,
- A Flight Test Schedule.
- Copy of the statement of the ATO which confirms the required training has been completed (if relevant).
- Copy of the examiner's licence (both sides if relevant).
- Copy of the examiner's certificate.

The candidate shall submit the form 'Aanvraag bewijs van bevoegdheid vliegtuigen (A) of helicopters (H)' and the documents indicated in item 10 of the Dutch version of that form.

This form is published on the website of KIWA Register at the bottom of this [page](#).

The report of the examiner, and the request of the candidate shall both be sent by mail to:

KIWA Register

Postbus 4

2280 AA Rijswijk

The Netherlands

Or electronically by a scan of good quality to [vergunningen@kiwa.nl](mailto:vergunningen@kiwa.nl)

4.5 Safety Criteria

The examiner is fully responsible for the safety during the test or check, in the simulator or when acting as PIC in an aircraft.

**Note:** References to access to the safety criteria to be observed in the territory of other MSs, if applicable, are contained in Section 3 of this document.

4.6 Examination Fees

The CAA-NL does not provide financial remuneration for expenses or services rendered.

The examiner shall arrange those with the training organisation or the candidate.

4.7 Examiner Support Information

All information can be found [here](#).

The CAA-NL will sample skill test, proficiency checks or assessments of competence according to a published national oversight program (ARA.FCL.205(a)).

The CAA-NL will publish a list of all examiners it has certified, or registered by means of the registration process (chapter 4) in accordance with FCL.1015 and ARA.FCL.205.

The CAA-NL does not pay financial compensations for expenses or services rendered. The examiner shall arrange those with the training organisation or the candidate.

If the examiner suspects that a pilot does not comply with the requirements of Part-FCL, Part-MED or any other applicable operational requirements, the examiner shall immediately contact the CAA-NL.

As a part of the monitoring program for examiners as mentioned in ARA.FCL.205 any proficiency check or skill test performed on a Dutch licence holder may be subject to supervision. If the supervision is unsatisfactory the authority that issued your examiner's certificate will be notified.
